## Who We Are

Righteous Funds of Africa (Pty) Ltd is an organization that was established through faith and obedience to ensure that it can fulfill the requirements of its mandate to restore Kingdoms in Africa in partnership with its stakeholders being

- United Kingdoms of Africa
- Goals 4 Development (G4D) Kingdom Trusts

## What We Do

RFOA is in the business of making a difference in the African Kingdom communities across the African Continent, assisting these communities to become self-sustainable utilising skills through which they can generate income and develop businesses. The aim is to empower and educate everybody in these communities in order to create a better life for all.

The African word “UBUNTU” has derived from a concept that remains close to the hearts and minds of RFOA as well as to all the people of Africa. “UBUNTU” means: I am who I am because of you and those around you. I am Because We / You are! The spirit of UBUNTU refers to the fact that we as people belong to a greater community and therefore it is important to treat others with respect and dignity.

RFOA’s mandate is to restore the Kingdoms in Africa through passing on skills and to educate and empower communities to run, manage and grow their own businesses, in order to become part of the mainstream economy. Through this process of stimulating local development activities / enterprise development, people are being taught to help themselves and restore their dignity, pride and hope by generating their own sustainable income to provide for their families first, then their communities and then the country at large.

In order for RFOA to achieve maximum impact across the African Kingdoms, it has formed strategic partnerships and opted for collaborating with other like-minded organisations, Trade 4 Development and Goals 4 Development (G4D), that want to bring and affect change across the African Continent.

The extended mandate of RFOA also includes the following:

- Fundraising
- Funding and Fund Management
- Business matchmaking services
- To facilitate resource opportunities in African Kingdoms
- To assist with international diplomatic relations and protocol
- To act as marketing and communication agent to elevate African Kingdoms on an international level
- To provide project and events management support for RFOA and African Kingdom partnership events

## Operational Summary

The Righteous Funds of Africa (RFOA) Executive Board has a passion for people and possess an intimate dedication to their mandate. The Stakeholders of RFOA literally has Africa in their hands; *they are the people, they are the land*, and they own most of the available resources. It is of vital importance that these people need to implement a workable, sustainable plan for years to come. Due to this need, a fervently strong alliance was formed between the Forum of Sovereign and Traditional Leaders of Africa and Righteous Funds of Africa (RFOA).

In order for RFOA to adhere to the cry of the African Kingdoms, strong strategic partnerships were formed with companies driven by their passion for the people of Africa, but more importantly companies that also understand the heartbeat of Africa's people. These partners are in a strong position to deliver on needs and without a doubt understand global trade and development at its best. The strong relationship between our USA partners and all our other Strategic Partners offer a solid foundation to safeguard Africa, yet allows continuous development of international relations and platforms that have similar intentions - a sustainable Africa with strong cultural and spiritual values among the African Kingdoms.

In order for RFOA to fulfil this enormous task, both RFOA and its Strategic Partners form a reputable channel of world funds which ensures - through their accountability to each other and their investors - that these funds reach their intended recipients and result in a self-sustaining Africa.

**RE: STRATEGIC PARTNERSHIP FORUM OF SOVEREIGN AND TRADITIONAL LEADERS OF AFRICA / RIGHTEOUS FUNDS OF AFRICA (RFOA)**

The Forum of Sovereign and Traditional Leaders of Africa, a body that seeks to focus on the rural development of Africa at large, is headed by His Majesty Tchiffi ZIE Jean Gervais as Secretary General Permanent and re-elected during a gathering of Sovereigns and Traditional Leaders in Equatorial Guinea during September 2013.

The purpose of the Forum was to establish a body through which the Royalties in Africa can have one voice that will be respected by the African Union, individual Presidential Offices in Africa and also the United Nations. The Forum brings change to a Continent where foreign exploration is making headlines on a daily basis and the Forum therefore assists the African people to become sustainable, independent and self-sufficient in order to be able to meet their people's needs. It further creates small transformation units in every village, sultanate and Kingdom, helping African Presidents to meet the challenges of establishing stability in their country.

The Forum of Sovereign and Traditional Leaders of Africa is well positioned politically, but change needs to happen within our communities as this is where our hearts and homes lies.

Transformation in Africa can only take place through skills development, technology, education, local economic development activities and enterprise development. This is the reason why the Forum partnered with Righteous Funds of Africa (RFOA) with its shared mandate to restore Kingdoms in Africa through alleviating poverty, empower communities and educate people.

Righteous Funds of Africa has been established through the Forum of Sovereign and Traditional Leaders of Africa and is therefore recognised as the extended implementation arm of the Forum, endeavouring to bring restoration to the continent of Africa through its strategic partnerships, projects and initiatives.

The Forum wishes to confirm its commitment to RFOA to support its projects and to realize our respective mandates for the Kingdoms of Africa.

We look forward to our continued partnership.

## Trade for Development - Health

Africa's future has brightened in recent years, however, the continent has seen a dramatic increase in non communicable disease rates which creates a challenge for any country or continent. Africa also has the fewest health professionals of any WHO region.

Much of human aging and disease is due to high levels of free-radicals in the body. The way in which free radicals are removed is by anti-oxidants of which CHD-FA is a powerful example. CHD-FA is likely to be particularly suitable for use in soldiers' battle-packs or first aid situations as it is safe and stable at high temperatures. CHD-FA has no competitor in the market with the same broad spectrum properties and is ideally suited for African conditions and climate.

We partner with some of the world's leading pharmaceutical/healthcare companies, as well as other select customers in the medical equipment, animal drugs and personal care categories. •

- develop T4D Health and build the business, thus making CHD-FA an African reality
